Well Positioned at the Frontier

Earlier this morning, CoreWeave announced that they have signed a multi-year agreement with Anthropic, adding yet another frontier AI lab to CoreWeave's customer base, which comes after yesterday's news of an expanded partnership with Meta including a new \$21B agreement that will be served through 2032. Both of these announcements highlight what we view as incrementally positive signs that CoreWeave is becoming the neocloud of choice for the frontier labs whom make up a vast majority of the accelerating compute demand that we believe continues for the foreseeable future.

This latest Anthropic deal positions CoreWeave well for future NVIDIA-powered capacity that Anthropic will continue to focus on within their core compute mix. While details around the contract are sparse, we anticipate that the current agreement is smaller in total contract value than other contracts with frontier labs have been, but we do expect that this will expand significantly over time and as CoreWeave brings on more capacity. At this moment, we also expect that this capacity is for NVIDIA systems, which remain a core piece of Anthropic's compute mix on both the training and inference side, despite comments from AWS CEO Matt Garman suggesting that Anthropic only uses Trainium chips for training (from what we gather, Anthropic uses a mix between Blackwell, Trainium, and TPUs). We think this positions CoreWeave well to bring on additional NVIDIA-powered capacity in the future, given that Anthropic's Trainium capacity is currently being served well by AWS and their TPU capacity is being handled by Google and TPU-oriented neoclouds like Fluidstack. On details, capacity will start to be delivered later this year, but will ultimately be focused on a phased roll-out that can expand over time.

While this deal could allow CoreWeave to potentially host other chips such as TPUs or Trainium, we find it unlikely. While we would certainly consider it a positive development for CoreWeave to be able to offer multiple kinds of chips to their customers, we believe CoreWeave's close ties with NVIDIA as not only a supplier, but a customer, and investor, likely close the door on any potential for hosting non-NVIDIA chips. In the competition for frontier lab business, we believe CoreWeave is well positioned even if they only offer NVIDIA chips, given Nebius is unlikely to sign either OpenAI or Anthropic as customers given their propensity to focus on large-scale deals with credit-worthy customers.

Yesterday, CoreWeave also announced a new \$21B agreement with Meta that will be served through 2032. This is in addition to the \$14.2B agreement that was signed later last year with Meta, and this new contract will be delivering Vera Rubin systems, which we'd assume lines up with the recently announced DDTL 4.0 for \$8.5B of asset-backed financing. On this point, so long as CoreWeave can sign contracts with credit-worthy customers or leverage an NVIDIA backstop on contracts with frontier labs, we continue to believe that CoreWeave will be capable of raising capital at increasingly attractive rates.

We reiterate our BUY rating and raise our price target from \$125 to \$175, valuing shares at 1.1x backlog and 26x CY27E EBIT.

Company Description

Livingston, NJ – CoreWeave is a US-based cloud computing company specializing in GPU-accelerated infrastructure tailored for artificial intelligence and high-performance computing workloads. Founded in 2017 and headquartered in New Jersey, CoreWeave operates a growing network of data centers across North America and Europe. The company offers a range of services including access to NVIDIA GPUs, virtual and bare metal servers, object and distributed file storage, and high-performance networking solutions. CoreWeave's platform is designed to support compute-intensive applications and workloads such as AI model training and inference, visual effects rendering, and batch processing.

DaVinci Overview

D.A. Davidson's DaVinci initiative focuses our technical-oriented research, data-driven insights, and prescient think pieces under one unified framework. We note that for our DaVinci coverage of deep tech businesses, we employ an early-stage venture approach focusing on technical foundations, disruptive potential, and long-term strategic value, rather than near-term financial and valuation metrics given the unique growth trajectories of pre-inflection markets.

Potential Risks

Competitive Tension with Key Customers: CoreWeave's largest customer also represents its most formidable long-term competitor. As these entities scale their own internal infrastructure, CoreWeave may increasingly serve as overflow capacity for these types of customers rather than a core dependency, introducing structural risk to CoreWeave's ability to maintain sustained demand and margins in the face of alternatives.

Customer Concentration Risk: CoreWeave's revenue base remains heavily concentrated among a small cohort of hyperscalers and AI labs, including some with limited financial maturity or unproven long-term sustainability. Any disruption among top customers could materially impair CoreWeave's revenue growth and utilization rates.

Capital Intensity and Leverage Exposure: The company's aggressive expansion strategy is underpinned by significant Capex requirements, primarily to build out GPU-dense data centers capable of hosting next-gen AI workloads. This has been financed in part by high-interest debt, introducing financial risk tied to interest costs and refinancing obligations. CoreWeave is likely to be forced to raise incremental capital to keep pace with their competitors and build out to meet commitments.

Required Disclosures

Best-of-Breed: Expected to outperform on a risk adjusted basis over a five-year time horizon, but may be fully valued over a 12-18 month time horizon.

D.A. Davidson & Co. makes a market in CoreWeave, Inc., Apple Inc., Amazon.com, Inc., Alphabet Inc., Meta Platforms, Inc., Microsoft Corporation, Nebius Group N.V. and NVIDIA Corporation.

D.A. Davidson & Co, or any of its affiliates, does or seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

D.A. Davidson & Co. is a full service investment firm that provides both brokerage and investment banking services. Alexander Platt, the research analyst principally responsible for the preparation of this report has received and is eligible to receive compensation, including bonus compensation, based on D.A. Davidson's overall operating revenues, including revenues generated by its investment banking and institutional equities activities. D.A. Davidson & Co.'s analysts, however, are not directly compensated for involvement in specific investment banking transactions.

I, Alexander Platt, attest that (i) all the views expressed in this research report accurately reflect my personal views about the common stock of the subject company, and (ii) no part of my compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Rating Information

D.A. Davidson & Co.'s Institutional Research Rating Scale Definitions (maintained since October 10, 2017); information regarding our previous definitions is available upon request:

BUY: Expected to produce a total return of over 15% on a risk adjusted basis over the next 12-18 months

NEUTRAL: Expected to produce a total return of -15% to +15% on a risk adjusted basis over the next 12-18 months

UNDERPERFORM: Expected to lose value of over 15% on a risk adjusted basis over the next 12-18 months

Rating Distribution (as of 12/31/25)	Coverage Universe Distribution			Investment Banking Distribution		
	IR	WMR	Combined	IR	WMR	Combined
BUY (Buy)	60%	85%	63%	8%	0%	8%
NEUTRAL (Hold)	40%	13%	36%	4%	0%	3%
UNDERPERFORM (Sell)	0%	2%	1%	0%	0%	0%

IR denotes Institutional Research; WMR denotes Wealth Management Research whose rating scale is Buy/Add, Neutral, Sell/Reduce. Investment Banking Distribution denotes companies from whom D.A. Davidson & Co. has received compensation in the last 12 months. Best-of-Breed: Expected to outperform on a risk adjusted basis over a five-year time horizon.

Target prices are our Institutional Research Department's evaluation of price potential over the next 12 months, based upon our assessment of future earnings and cash flow, comparable company valuations, growth prospects and other financial criteria. Certain risks may impede achievement of these price targets including, but not limited to, broader market and macroeconomic fluctuations and unforeseen changes in the subject company's fundamentals or business trends.

While the Best-of-Breed designation does not contain a separate rating and/or price target from that of the standard ratings system referenced above, the expectation is that the security, based on the 12 criteria utilized in assessing the "Best-of-Breed" designation, will outperform over a five-year time horizon, not the standard 12-18 month time horizon.

For a copy of the most recent reports containing all required disclosure information for covered companies referenced in this report, please contact your D.A. Davidson & Co. representative or call 1-800-755-7848.

Other Disclosures

Information contained herein has been obtained by sources we consider reliable, but is not guaranteed and we are not soliciting any action based upon it. Any opinions expressed are based on our interpretation of data available to us at the time of the original publication of the report. These opinions are subject to change at any time without notice. Investors must bear in mind that inherent in investments are the risks of fluctuating prices and the uncertainties of dividends, rates of return and yield. Investors should also remember that past performance is not necessarily an indicator of future performance and D.A.

This report is intended for AJPlatt@dacdo.com. Unauthorized distribution prohibited.

Davidson & Co. makes no guarantee, express or implied, as to future performance. Investors should note this report was prepared by D.A. Davidson & Co.'s Institutional Research Department for distribution to D.A. Davidson & Co.'s institutional investor clients and assumes a certain level of investment sophistication on the part of the recipient. Readers, who are not institutional investors or other market professionals, should seek the advice of their individual investment advisor for an explanation of this report's contents, and should always seek such advisor's advice before making any investment decisions. Consensus estimates are obtained from Capital IQ. Further information and elaboration will be furnished upon request.
